MORE STRENGTH SHOWN

The Market Overcoming Stringent Money Conditions.

Relief Expected From the Treasury Payment on the Government Debt -London Influence on the Buying Side-Industrials Active, Sugar Refining Scoring Sharp Advances.

NEW YORK, Dec. 10 .- Notwithstanding that the actual conditions in today's call loan money market were more active and stringent than they were at any time last week the stock market had a distinct and fairly common tendency toward improvement. It seemed to be the common opinion that the conditions disclosed in Faturday's bank statement represented the virtual culmination of those tendencies which have been working against the local money market.

Early in next week substantial relief will be afforded by the Treasury payments on account of the anticipation of the interest on the Government debt 1. nturing January 1, and it seems fairly certain that last week's heavy currency shipments will not be repeated. At any rate, the disposition was general to re-gard the monetary outlook with more confidence and it was mainly on this ac-

the more cheerful speculative sentiment prevailing the disposition of the foreign dealings counted for a great deal in shap-

Apart from the considerations upon the state of the money market there was nothing of general importance holding elements of novelty that engaged atten-

The sharp advances in Colorado Fuel and Iron and Tennessee Coal and Iron were due, respectively, to the exceedingly strong showing made by the first named

in its statement.

No particular gossip appeared to attend the pronounced advances in the local traction shares. The idea still prevails that important changes in the management of the Brooklyn Rapid Transit Comment of the Brooklyn Rapid Transit Company may soon be announced, together with some alteration in the personnel of the company's directorate. Despite the preponderating interest expressed in the industrial and local traction shares, the railway list was by no means neglected, and for the most part it was decidedly Wells, Herrick & Hicks, the stock exchange from which is advertising for the most part it was decidedly raliway list was by no means neglected, and for the most part it was decidedly strong. Conspicuous featurer were Southern Pacific, Northern Pacific, and St. Paul, the Eric shares, and Reading. Pennsylvania was notably strong also, and New pose of ousting John W. Gates from the New Pose of Ousting John W. Gates from the New P York Central while quiet, was firm.

There was a little boom in the stock market yesterday morning which carried the entire list to a higher level and some

pected, and to the action of Secretary before. But the stock looks to be quite pected, and to the action of Secretary Gage in anticipating the interest due January 1. The short interest had good profits and rightly considered it proper to take some of them. The people locking out for bargains bought Tennessee Call and Iron and other stocks that have had the worst tumbles in the recent break. London was a buyer of stocks yesterday, though not very heavily. After the first two hours there was a recession that clipped the better part off the early gains, though the close showed advances nearly everywhere.

Before. But the stock looks to be quite as good a speculation as as investment. The other grangers were all fairly strong but these stocks seem likely to go off somewhat in any general decline on account of being in the "high priced" class. The regular dividend of 2 per cent quarterly was declared by the General Electric directors yesterday, and in addition an extra dividend of 1 per cent was declared, making a total of 8 per cent for the year. The stock was strong yesterday, advancing from 169 7-8 to 1711-2, and closing at 171. People close to the inside

It seems probable that yesterday's advance will not extend much if any further. The opening teday may be good, but later declines are looked for. At most it is extremely unlikely that the upward movement will last over the first three days of the week. It is not disputed that underlying conditions are excellent.

During the remainder of the year money conditions are likely to be strained and the bears will do everything in their power to keep prices down. Some people who ought to know say that even the most important of the speculative interests, that are really bullish in their beliefs, are working new for lower prices this year on which to buy stock. The next upward movement should be a very big and im-portant one. Some of the biggest people in the financial world believe this, and have been laying in immense blocks of stocks preparatory to it. But such a movement can afford to wait for the most favorable conditions, and the people that will engineer it do not care for small fluc-tuations. Before it starts, therefore, there may be a further reaction of two or three points all over the list between this and the holidays.

At the opening of business speculative sentiment was encouraged by the advance in the London market for American stocks, and foreign houses appeared on the buying side, notably in St. Paul, Their total purchases on balance amounted only to about 25,000 shares of statement of the statement of th The expectation of this continued resc-tion in the general list does not preclude of decreased earnings and of the proba-bility that the dividend would be reduced or parsed on the stock was put out by the bears and caused some selling of long stock near the bottom last week. The low price reached was 561-2. Yesterday there was a sharp rally to 621-2, and the close was at 613-4. As a matter of fact the dividead is not likely to be cut and certainly will not

elements of novelty that engaged attention at the opening of business or with the course of the day's session. Comparatively few statements of railway traffic were submitted and there was little other routine news of any consequence. The threatened labor troubles on the Atchison system caused those stocks to move contrary to the general tendency upon the opening, but they subsequently recovered a good part of their early loss.

Active interest in the market was chiefly expressed in the industrial quarter and in the local traction shares. All of the steel industrials, with the exception of American Steel and Wire, advanced very sharply on heavy dealings. The stocks of the general class of American Steel Hoop, the Tin Plate, and National Steel were conspicuously strong, and there was also a notable on heavy dealings. The stocks of the general class of American Steel Hoop, the Tin Plate, and National Steel were conspicuously strong, and there was also a notable advance in Federal Steel. The dealings in and the course of the stocks in question appeared to be based altogether upon prevailing ideas in regard to the dividends to be declared on them within the next few weeks.

Sugar Refining, which was notably strong and active, advanced, presumably on the higher quotations for refined sugars fixed by the National Company. An overextended short interest in the case of Sugar Refining, and its natural timidty, is increased by the apprehension that at some future time the management may see fit to declare the extrn dividend, the absence of which created so much consternation last week.

The sharm advances in Colorado Fuel would seem that the stock ought to I worth 60 per cent of its par value, which it would give a return of 6 1-2 pecent on the investment. One reason for the weakness of the stock during the paweek is that loans were called when Tennessee Coal and Iron shares had been pledged as collateral. This step could have only one effect, namely, to inaugurate a selling movement at the expense. urate a selling movement at the expen of market values. Many careful peop

report that many more proxies to be used at the annual meeting have been re-

Mr. Henry Seligman, on Saturday, gave emphatic denial to the report that the firm of W. & J. Seligman was back of the firm of W. & J. Seligman was back of the effort directed against Mr. Gates. Denials have now come from Standard Oll interests, from Mr. Dolan and Mr. Widener, and from Mr. Seligman. In addition to these gentlemen Wall Street has mentioned J. Edward Addicks and George Alfred Washington Market. 10 ed J. Edward Addicks and George Alfred Lamb, who have made no dental as yet. Saturday's additions to the list of opponents included W. Bourke Cockran and Camille Weldinfeld, the latter formerly of Lawson, Weldinfeld & Co.

The report of opposition from the Havemeyer interest seems to centre around Herman Sielcken, who resigned recently

as a director of the American Steel and Wire Company. Mr. Sieleken looks after the Coffee and Sugar Trusts' business, and openly announces that he did not ap-prove of the action of his associate di-Company's lake transports.

Company's lake transports,

Mr. Sicken has given out the following statement: "I notice that a director defends the action of himself and his associates by the statement that the steamship purchase was a good trade because it required no money. This argument is incomprehensible to me, but perhaps to the past two years and an addition to the membership would tend still further to cut down the business of each member.

The activity and hunyancy of Washing-bord two traditions are the past two years and an addition to the membership would tend still further to cut down the business of each member.

Corrected daily by W. P. Hibbs & Co., members two traditions and provision Market.

Corrected daily by W. P. Hibbs & Co., members two traditions and provision members are the New York Stock Exchange, 1412 F. ment is incomprehensible to me, but perhaps I was brought up in a different school of finance. I must still confess myself unable to understand why the American Steel and Wire Company, professing to have \$50,000,000 of capital, should issue \$5,630,000 in bonds for the purchase of twelve ore steamers, when twelve new boats of the same tonnage could today be contracted for and delivered in the rpring of 1962 for between \$3,000,000 and \$3,000, and there is plenty of tonnage to be had for the intervening season. Seventy-five per cent of the American Steel and Wire directors' meeting. Of course I resigned."

The activity and buoyancy of Washing to nake as evident yesterday on the exchange as it was during the latter half of last week. Six hundred shares were sold, of which 400 were disposed of at 58. The bid at the close was 58. The rumor that a syndicate is in the field wishing to buy this company and the two street railway companies was certain to appear, with Gas and Capital Traction stock booming, and Mr. Frith from Boston making an examination of the Washington Traction system. It was heard in F Street yesterday, but could not boast of a father willing to acknowledge his offspring. ing. Of course I resigned."

The strike on the Atchison system does not seem to have any bad effect on the securities of the company. They were both strong yesterday, closing with net. On heavy transactions from 103 to 104 ex dividend, the equivalent of two full points. The stock sold "ex" its 1 per cent dividend. securities several points up. The buying was for the short account largely, but there was also some good buying of the securities that were particularly weak last week, and of the low-priced issues generally. The advance was expected and had been predicted by careful market critics generally. It was due to a bank statement, poor, but not so had as ex-

closing at 171. People close to the Inside talk most optimistically of General Electric, and many are promising that it will sell at 200 during the winter.

The Eric securities were again strong, the preferred getting as high as 47 1-8 at one time and closing at 46 3-4, and the common getting to 17 and closing at

The Flowers, who helped to advance Federal Steel, were also active in Brook-lyn Rapid Transit. The stock was strong all day, getting to 721-4 at one time. The other New York traction securities were also fairly strong.

Sugar has a boom on heavy buying by two or three important people. It closed with one of the best net gains of the day at 124 7-8. The price of refined sugar was again advanced by Howell & Co., the new price fixed being 5.60 cents.

Washington Gas..... 58 Georgetown Gar. TELEPHONE STOCKS.

his offspring. Capital Traction has jumped up rapid

Washington Traction and Electric bonds, on the other hand, have continued to show a weakness not very well accounted for by any known factor in the situation. The best bid for the bonds yesterday was 571-2, and they were offered at 581-2. The appearance of Mr. Frith in the city a week ago as an expert on street railways, un-derstood to be looking over the syndi-cate's properties for a Boston coterie of capitalists, added a new interest to the gossip regarding the syndicate, but not much lucidity. It is understood, however, that there are two or three groups of capi-talists in Boston and New York that would be glad to acquire the allied rail-ways if they could. It is said by people professing to have expert knowledge of street railway values that the present market price of the syndicate bonds does not nearly represent the capital actually expended by it in buying stocks and in its

There has been a sharp advance in Tele-

The Cahill Electric Typewriter Company

Offers for Subscription a Limited Amount of Its

Six Per Cent, Cumulative, Preferred Surplus-sharing Stock,

Full-paid and Non-assessable, at Par-\$50.

In fact, the application of electricity to the typewriter has made it possible to improve the machine, increase its speed, and reduce the labor of the operator to an extent heretofore not considered possible.

The Cahill Company has been engaged for years in perfecting its machines, has acquired a monopoly of all the most valuable electrical typewriter patent rights, has built up a large plant and factory, and in order to increase its facilities for manufacturing its machines in large quantities and at a low chines in large quantities and at a low cost, has recently authorized an in-crease of its capital stock from \$710,000 to \$1,250,000, of which \$1,000,000 is common stock and \$250,000 6 per cent cumulative, preferred, surplus-sharing stock.

THE STOCK OFFERED IS PREFER-RED which means that 6 per cent dividend must be paid annually on it before anything whatever is paid on the common stock.

IT IS CUMULATIVE—which means that if a dividend is not paid one year, it is carried forward as a debt against the profits of the succeeding year, so

that all back dividends on the preferred stock must be paid before any dividends whatever can be paid on the

it is participating, or sur-PLUS-SHARING—which means that if the profits are more than 6 per cent it snares them equally with the com-

mon stock.

ITS AMOUNT IS LIMITED by the company's charter to \$250,000.

Behind the guarantee of 6 per cent on the preferred stock is (a) the money—about \$120,000—which the company has already invested in garfecting its machines and building up a plant which is the finest of the kind in this part of the country; (b) the proceeds of the preferred stock, which will be used in increasing the plant and in inanufacturing the machines, and (c) the franchises of the company—the typewriter rights under thirty patents and pending applications—which secure and pending applications—which secure to the Cabill Company a thorough mo-nopoly, it would seem, of all commer-cially practicable electrical typewrit-

The money received from sale of stock will be used to buy additional machinery, to make additional special tools, to improve and increase the factory and plant, and to manufacture and sell typewriters—to prosecute the business.

PROSPECTS OF PROFITS.

It is difficult to give an exact statement as to the number of typewriters manufactured. From all the information at hand, however, an estimate of 100,000 machines a year, made in the United States, seems to be reasonable. EVEN SO SMALL A BUSINESS AS 2,000 ELECTRICAL TYPEWRITERS A YEAR, AL-LOWING A NET PROFIT OF \$50 ON EACH MACHINE, WOULD LEAVE A PROFIT OF \$100,000, OR 8 PER CENT ON THE WHOLE AUTHORIZED CAPITAL STOCK OF THE CAHILL COMPANY, LESS THAN ONE-SIXTH THAT AMOUNT OF NET PROFITS WOULD BE SUFFICIENT TO PAY THE 6 PER CENT DIVIDEND ON THE PREFERRED STOCK. But this is counting on a very small business. One American company alone is un-derstood to be selling more than 30,000 type-writers a year, while several others are selling from 5,000 to 15,000. A sale of 10,000 ele trical typewriters a year, with a profit of \$50 on each machine, would enable the company

pay 40 per cent dividend on its stock. And with larger sales proportionately larger profits, it would seem, may reasonably be

Such profits may seem considerable, but even larager profits have been realized from good patented monopolies, particularly in the electrical line. Every one familiar with the facts knows that the telegraph, the telephone, and the electric light patents were each a fortune to many of the earlier invest-

street; its MAIN OFFICE AND FACTORY, occupy the 4th and 5th floors of the Barbe & Ross building, corner Eleventh and G streets northwest. Intending investors will please call at the latter place, where the com-pany's plant, as well as its various types of machines, can be seen. The company reserves the right to close subscriptions at any time and to reject sub-scriptions at will.

The buying seems to be for investmen rather than room trading. It is said that some prominent holders of the stock have received word that the opposition tele-phone bill will not be passed. THE CHICAGO GRAIN MARKET.

Wheat Fluctuating, Corn Weaker, Oats Continuing Heavy.

CHICAGO, Dec. 10.-Wheat opened lower CHICAGO, Dec. 10.—Wheat opened lower on commission house selling. The market was steadied on buying by local shorts and a fair recovery resulted therefrom, but the closing was under Saturday night's on the reselling of these lines. Liverpool was comparatively steady, only 3-8d lower. World's shipments were light—6,000,000 bushels. There was a decrease affoat of about 300,000 bushels. The visible supply decreased 585,000 bushels. They facply decreased 685,000 bushels. These fac-tors, however, were more than offset by large primary receipts. The cash demand

mas not urgent—190,000 bushels here and only 10 loads at the seaboard.

The corn market was weak in tone. Liverpool professionals were the principal sellers of May, but there was some good selling by the elevator people on larger country acceptances. There was further commission house covering in December. commission house covering in December delivery, which gave the market a slight rally. The cash demand is poor. The selling of May oats by receivers and

elevator firms was not large, but was con-

GOVERNMENT BONDS.

Washington Market. 10
Norfolk & Washington 11
Lincoln Hall. Ex-dividend. Local Investment Notes. At a special meeting of the Washington Stock Exchange yesterday, after the reg-ular call, it was decided to reject the recommendation of the governing committee to increase the membership of the ex-change from forty to fifty. The plan of the committee was voted down unanimously those in favor of it withdrawing rectors in issuing bonds to themselves for their support as soon as it was seen that the purchase of the American Steamship the general sentiment was against it. The reason given for not adopting the plan

large increase.
